Seminar LDSHP 1.1: Are We Selling a "Career" to Applicants? Employee Recruitment and Retention for the Long Term

Description: Workforce management in criminal justice fields, specifically the interconnected themes of recruitment and retention, has emerged as a pre-eminent challenge in the contemporary environment. This seminar outlines promising practices to engage potential recruits and existing employees to create a "compelling career" which attracts and retains best personnel for the long run.

Speaker: Charlie Scheer, Assistant Professor, The University of Southern Mississippi, Hattiesburg, MS

Room: A10

8:30 AM - 9:30 AM

Seminar LDSHP 1.2: Ethics: The Most Important Perishable Skill

Description: Traditional law enforcement training focuses on the hard skills; however, the foundation of behavior is our personal character. This course will provide new ideas and concepts that highlight the importance of training character and describe how to infuse ethics in all you do. We will also explore how it is the small automatic decisions we make each day that reveal who we truly are.

Speakers: Dr. Kimberly Miller, Licensed Psychologist, Kimberly A. Miller & Associates, Fort Collins, CO; Lt. David Pearson, Fort Collins Police & Kimberly A. Miller & Associates, Fort Collins, CO

Room: A11

8:30 AM - 9:30 AM

Seminar LEO 1.1: Police, Fire, and EMS: An Integrated Approach to Mass Casualty Violence Events

Description: Lessons learned from mass casualty incidents reveal the need for increased cooperation among police, fire, and EMS. This seminar will provide an overview of various philosophies about how to accomplish better interoperability and possible ways forward in light of differing standing protocols, terminology, and missions among first responders.

Speakers: Charles Brewer, Branch Chief, Federal Law Enforcement Training Centers, Glynco, GA; Alexander Eastman, MD, MPH, FACS Lieutenant and Chief Medical Officer, Dallas Police Department, Dallas, TX

Room: A12

8:30 AM - 9:30 AM

Seminar TECH 1.1: Collecting the Right Use of Force Statistics

Description: The Florida Sheriff's Risk Management Fund has developed an unprecedented program that collects use of force data from all its members voluntarily, to show how having access to statistics on a regional level can shape policy, training, as well as notify management of any deputies whose previous involvement in use of force incidents might pose additional liability. Such a partnership can show how sharing relevant information can assist law enforcement agencies nationwide to be transparent and proactive as it relates to Use of Force.

Speakers: Bryan Selzer, CEO (Retired SSGT), LEFTA Systems, Jacksonville, FL; Gene Revell, Risk Control Specialist (Retired Commander from Leon County SO), Florida Sheriffs Risk Management Fund, Tallahassee, FL

Room: A13

NSA Executive Committee, Board of Directors and Past Presidents

Room: Ballroom C1/2

9:45 AM - 10:45 AM

Seminar GM/R 2.1: Triad 101

Description: This seminar is designed to establish, with no additional resources, an effective volunteer-driven program to curb crime committed against your most vulnerable constituents – older adults. Reports demonstrate non-reporting among this demographic. Discover the effective techniques used in this community involvement program for peer to peer outreach to older adults involving your community outreach officer, older adult volunteers, and resources already in your community that can be harnessed to reduce senior victimization. You will leave with a step by step implementation manual with everything you need to begin.

Speakers: Deputy Sheriff David Fenton, Hampshire Sheriff's Office, Northampton, MA; and David Sullivan, District Attorney, Office of the Northwestern District Attorney, Northampton, MA

Room: A10

9:45 AM - 10:45 AM

Seminar LDSHP 2.1: Personnel Recruitment for Sheriff's Offices: Promising Strategies for Workforce Management

Description: Sheriff's offices, despite being different organizational systems than municipal police agencies, are subject to challenges in workforce recruiting and personnel development that affect all criminal justice organizations. This presentation discusses the applicant pool, generational preferences, and agencies and their recruitment strategies, and how each affects workforce management.

Speaker: Charlie Scheer, Assistant Professor, The University of Southern Mississippi, Hattiesburg, MS

Room: A11

9:45 AM - 10:45 AM

Seminar LEO 2.1: Methods of Collecting, Reporting, and Information Sharing Utilizing the SAR Initiative

Description: This presentation showcases the criticality of the information state and local law enforcement provide to the Terrorist Screening Center. It covers methods of tracking Known or Suspected Terrorist (KST) movement, effective handling of KST encounters, and the layered law enforcement, intelligence, and homeland security approach to minimize threats of violent extremists.

Speakers: Scott Dahl, Instructor, Federal Law Enforcement Training Centers, Glynco, GA; and Captain Jack Sadler, Hendricks County Sheriff's Office, Danville, IN

Room: A12

9:45 AM - 10:45 AM

Seminar TECH 2.1: Funding Law Enforcement TECH through Grants

Description: Looking for an alternative means to purchase body-worn cameras and other TECH for your department? Join us to discuss the state and local government grant funding landscape, review specific TECH-friendly grants, and offer tips for successful proposals. We will also highlight proven techniques to effectively leverage and justify the inclusion of TECH in your next application.

Speakers: Michael Paddock, CEO and Ashley Schultz, Grants Development Coordinator, Grants Office, LLC, Rochester, NY

Sponsored Seminar 3.2: Common Jail Medications: Use, Abuse and Diversion

Sponsored By: Diamond Pharmacy

Description: Describe some of the most frequently used medications in jails across the United States and their primary function. Define abuse and diversion and discuss particular drugs that have the highest potential to be traded or misused during incarceration. Examine methods to minimize diversion and limit access to prescription medication and over the counter (OTC) items that can be problematic in a correctional environment.

Speaker: Stefan V. Beck, BPharm, AAHIVE, Account Executive/Clinical Pharmacist, Diamond Pharmacy Services, Indiana, PA

Room: A11

11:00 AM - 12:30 PM

Sponsored Seminar 3.3: How Technology is Changing the Community Relations Landscape and Perspective of Law Enforcement Executives

Sponsored By: Circinus LLC

Description: The Pew Research Center (Aug 2016) reports that 85% percent of sworn police officers surveyed believe that law enforcement officers today need to have a good knowledge of what scientific research shows are effective policing strategies. This panel of academics, analysts and law enforcement leaders will address state of the art strategies from both national and local law enforcement perspectives considering the role of information aggregation, technologies to facilitate data analysis and predictive models as a critical component of today's sheriff department. The panel will address ways for the agency to maintain and enhance their ability to clearly identify criminal behaviors using digital technologies, to appropriately train and manage police officers who evaluate the intelligence produced and to effectively stimulate positive community engagement for these tools.

Speakers: Sheriff Ted Sexton (Ret.), Tuscaloosa Sheriff's Office, AL; Honorable Matt Britton, Former District Attorney of King George County, VA; Honorable Fran Moore (Ret.), Former Chief Learning Officer of CIA, McLean, VA; Dr. Dora Vertenten, Professor of Public Policy, University of Southern California, Los Angeles, CA

Seminar GM/R 4.1: NGI Rap Back Services 101

Description: The Criminal Justice Rap Back Service provides immediate notifications to agencies regarding triggering events-criminal arrest, warrants, etc. reported to the NGI pertaining to individuals under criminal investigation/supervision. It enhances public safety and provides LE comfort knowing they will be notified immediately instead of their own man power continuously monitoring these individuals.

Speakers: Josh Stafford, Management and Program Analyst, and Robert Neason, Management and Program Analyst, Federal Bureau of Investigation CJIS Division, BSS/BSU Rap Back Services Team, Clarksburg, WV

Room: A10

12:45 PM - 1:45 PM

Seminar LDSHP 4.1: The Way Of The Jedi: Transforming Culture & Developing Balanced Officers

Description: There is much debate about how to frame the profession of law enforcement, with some arguing for a warrior approach, others are calling for guardians. Although each of these

perspectives have value, they push officers to extremes and don't promote a balanced viewpoint.

This class will explore how the "Jedi" approach will improve officer response and public perception.

Speakers: Dr. Kimberly Miller, Licensed Psychologist, Kimberly A. Miller & Associates, Fort Collins, CO;
Lt. David Pearson, Fort Collins Police & Kimberly A. Miller & Associates, Fort Collins, CO

Room: A11

12:45 PM - 1:45 PM

Seminar LDSHP 6.1: NSA's MAGNUS Series: Virtuous Magnanimous Officers

Description: The Magnanimous Law Enforcement Officer deploys habits of action by deliberate choice defined by sound reason, professional ethics, and personal character. The actions are not simply isolated behaviors but a set of studied virtues mastered over time. For a deed to be magnanimous, officers must act deliberately while demonstrating compassion and understanding. Challenged with occurrences of great risk, the Magnanimous Officer accepts his or her mission often defined between two extremes with automatic accountability while adhering to a moral compass, all with intentions of being mindful of their position as a guardian-servant leader of justice. Participants will come away better prepared to deal with the challenges of their duties, encourage and motivate others, internalize positive character traits and LDSHP styles, represent the standards of their agency and ideals of the profession, serve as a role model for others, overcome stress with resilience, and reconnect with the virtues of a MAGNUS Officer.

Speakers: Mitch Javidi, Ph.D., Founder, Institute for Credible Leadership Development; Sheriff Ray Nash (Ret.), Founder Police Dynamics Institute; and Chief Ward Clapham (Ret.), President, International Speakers Bureau, Institute for Credible Leadership Development

Room: A10

10:00 AM - 12:00 PM

Seminar LDSHP 6.2: Saving Lives through Below 100

Description: Over the past two decades more officers have been killed and seriously injured as a result of vehicle-related incidents than by gunfire. Many of these losses were single vehicle crashes and/or were a result of actions on the part of the officer. In 2014, the Snohomish County Sheriff's Office determined that police car collisions were dramatically increasing.

Speakers: Gordon Graham, Founder, Lexipol, Irvine, CA; Undersheriff Rob Beidler, Snohomish County Sheriff's Office, Everett, WA

Room: A11

10:00 AM - 12:00 PM

Seminar LEO 6.1: Response to and Investigation of Domestic Violence, Dating Violence, and Stalking

Sponsored Seminar 7.4: What You Need to Know About Body Worn Camera Technology

Sponsored By: Visual Labs

Description: Technology is changing rapidly and there are state-of-the-art advances in the field of body worn cameras that everyone should know about. Whether you have already implemented or are considering body worn cameras, this session will provide key information about emerging technologies

and how they can enhance officer safety and increase operating efficiency. You will learn that the emerging definition of BWC is Body Worn Computer. The session will focus on the latest trends and technological innovations with body cameras, including advances in both hardware and software. Topics discussed will include officer safety features such as situational awareness via live streaming and positional awareness via GPS/Cellular Triangulation. Other topics will include video geolocation – the ability to display maps that simultaneously correspond with body camera footage, and the ability to search for videos geographically. Advanced analytic features will also be discussed including heatmaps that can be used to expand upon proactive policing and improve operating efficiency, and geofencing that can be used to verify the quality of service provided to contract cities. Emerging technologies such as facial recognition will also be discussed. A portion of the presentation will discuss using a ruggedized smartphone as a body worn camera. This high-tech “all-in-one” solution provides functionality as a body camera, a digital camera, an audio recorder, a personnel locator, and a fully-functioning smartphone -- all in a single device. Learn how agencies are using this cost-effective solution to reduce the number of devices that an officer must carry and manage.

Speakers: Alex Popof, Chief Executive Officer, and Alexander Popof, Chief Operating Officer, Visual Labs, Menlo Park, CA; Muzib Khan, Sr. Director, Product and Corporate Planning, Kyocera Communications Inc., San Diego, CA

2:00 PM - 4:00 PM

Seminar LDSHP 8.1: NSA's MAGNUS Series: Managing Implicit Bias in a VUCA World

Description: Unlike explicit bias (which reflects the attitudes or beliefs that one endorses at a conscious level), implicit bias is the bias in judgment and/or behavior that results from subtle cognitive processes (e.g., implicit attitudes and implicit stereotypes) that often operate at a level below conscious awareness and without intentional control. There is what you know, what you don't know, and then there is what you don't know that you don't know. Implicit Bias lives in the domain of what you don't know you don't know. For maximum impact community engaged policing, it is our responsibility as law enforcement officers to seek out and resolve those biases that exist subconsciously within each of us, due to media, history or upbringing. Through experiential learning, this workshop allows the participants to discover their own implicit bias and how it affects their experience of another person. By combining deliberate leadership, emotional intelligence, body (language) awareness and authentic conversation, one's implicit biases are brought to light and dismantled.

Speakers: Cathy Greenburg, Ph.D., Founder, Fearless Leader Group; and Mitch Javidi, Ph.D., Founder, Institute for Credible Leadership Development

Room: A10

2:00 PM - 4:00 PM

Seminar LDSHP 8.2: Gordon Graham: Creating the High Reliability Organization through Leadership and Risk Management

Description: Gordon Graham, a 33-year veteran of law enforcement and world-renown speaker, invites you to learn how you can create the high-reliability organization in your sheriff's operations. Risk management permeates everything we do in law enforcement. Attendees will learn how to be the leaders who recognize the real risks they face in their everyday operations and keep their people safe.

Advanced Roadside Impaired Driving Enforcement (ARIDE) Program – FREE 2 Day Sign-up Event, Must sign up in advance, see registration form

Description: ARIDE is intended to bridge the gap between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC/DRE) programs by providing officers with general knowledge related to drug impairment and by promoting the use of DREs in states that have the DEC program. The ARIDE program stresses the importance of the signs and symptoms of the seven drug categories. This course will train law enforcement officers to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both, in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. This course will educate other criminal justice professionals (prosecutors, toxicologists, judges, etc.) to understand the signs of impairment related to drugs, alcohol, or a combination of both, to enable them to effectively work with law enforcement in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. All participants must be SFST proficient, must pass SFST proficiency demonstration at time of entry into class, and complete the ARIDE registration form.

Advanced Roadside Impaired Driving Enforcement (ARIDE) Program

2nd day of 2 day sign-up event

Description: ARIDE is intended to bridge the gap between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC/DRE) programs by providing officers with general knowledge related to drug impairment and by promoting the use of DREs in states that have the DEC program. The ARIDE program stresses the importance of the signs and symptoms of the seven drug categories. This course will train law enforcement officers to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both, in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. This course will educate other criminal justice professionals (prosecutors, toxicologists, judges, etc.) to understand the signs of impairment related to drugs, alcohol, or a combination of both, to enable them to effectively work with law enforcement in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. All participants must be SFST proficient, must pass SFST proficiency demonstration at time of entry into class, and complete the ARIDE registration form.
