THE NATIONAL SHERIFFS’ ASSOCIATION SUPPORTS A JOINT RESOLUTION WITH THE INTERNATIONAL ASSOCIATION OF CHIEFS OF POLICE ACCEPTING THE NATIONAL SAFETY COUNCIL POSITION ON CANNABIS (MARIJUANA) AND DRIVING REGARDING THC PER SE LEGISLATION

WHEREAS, the number of states, territories, and countries legalizing medical and recreational cannabis products continues to increase; and

WHEREAS, vehicle crash fatalities continue to be one of the most frequent causes of death internationally; and

WHEREAS, drugged driving and drug-related crashes, deaths, and injuries continue to occur at an alarming rate; and

WHEREAS, successful prosecution of impaired driving incidents is a necessary component of the efforts to decrease roadway injuries and deaths; and

WHEREAS, numerous states and territories have put forth, or adopted legislation creating a per se prohibited level of Delta-9-Tetrahydrocannabinol (THC) in blood; and

WHEREAS, the rapid elimination of THC from blood significantly challenges the use of forensic samples to represent the driver’s state at the time of driving; and

WHEREAS, we need better drug impaired driving data and the NSC Alcohol and Drugs Impairment Division has made recommendations to toxicology labs for testing guidelines that are based in data that should be standardized in more labs; and

WHEREAS, numerous scientific studies fail to identify a threshold level of Delta-9-Tetrahydrocannabinol (THC) in blood as a basis for per se legislation;

THEREFORE BE IT RESOLVED, that the National Sheriffs’ Association joins with the International Association of Chiefs of Police supporting the National Safety Council’s Alcohol, Drugs, and Impairment Division in supporting that organization’s Position on Cannabis and Driving publication, which sets forth conclusions that operating vehicles under the influence of THC increases risk of injury and death and that there is no minimum blood THC concentration which a driver can be considered unaffected after recent cannabis product consumption; and,

This resolution was adopted by the membership of the National Sheriffs’ Association on June 27, 2022, at the Annual Conference of the National Sheriffs’ Association, in Kansas City, Missouri. The resolution shall remain in effect until June 27, 2026, in accordance with Article XIII, Section 6, of the Constitution and Bylaws of the National Sheriffs’ Association.
BE IT FURTHER RESOLVED, that all law enforcement officials, highway safety officials, and Drug Evaluation and Classification (DEC) Program coordinators, should take the position with their legislative and governing bodies that there is no scientific basis for the adoption of THC per se legislation; and,

BE IT FURTHER RESOLVED, that all law enforcement officials, highway safety officials, and DEC Program coordinators, should take the position with their legislative and governing bodies that impaired driving statutes should prohibit operating a vehicle under the influence of cannabis and public safety efforts should prioritize the expansion of law enforcement training in recognizing and articulating drug impairment in drivers.

This resolution was adopted by the membership of the National Sheriffs’ Association on June 22, 2021, at the Annual Conference of the National Sheriffs’ Association, in Phoenix, Arizona. The resolution shall remain in effect until June 22, 2025, in accordance with Article XIII, Section 6, of the Constitution and Bylaws of the National Sheriffs’ Association.
