Meeting roles and permissions

Your role determines your capabilities for sharing, broadcasting, and other activities in an Adobe Connect Meeting. Permissions for each role are as follows:

Host: Sets up the meeting, invites guests, adds content to the library, shares content, and adds or edits layouts in a meeting room. NSA will be the host.

Presenter: Shares content already loaded into the meeting room from the library. They can share their screen with all attendees, chat, and broadcast live audio and video. When the presenter(s) specified above signs in to the webinar they will automatically be setup in this role.

Participants: Can view the content that the presenter is sharing, hear, and see the presenter's audio and video broadcast, and use text chat.
