OVERCOMING CHALLENGES: LAUNCHING A DRONE PROGRAM

August 25, 2021 1:00PM - 2:30PM (ET)

/ Hear from experts
in the field with
real-life
experience

/ Help your
office
effectively build
drone programs

/ Better empower
personnel and
first responders
in the field.

What challenges are there for organizations to start a drone program from scratch?

/ Learn the value of drone technology use and the best ways to overcome challenges from leadership, funding, and community support.

Here's what to expect:

- **Application** of drone technology and its realized benefits.
- **Key challenges** of starting drone programs.
- **Insights** from different law enforcement organizations with drone programs.
- **Industry examples** of SOP, hardware, software, support, and service options that address the needs of public organizations in starting drone programs.
- **Open Q&A** period answered by experts from Sheriff offices and Drone Services experts.
