The Ramifications of Proposed Modifications to Use of Force Laws in America

The recent push among some influential individuals and organizations to modify law enforcement use of force standards has initiated much conversation and debate about the need and the ramifications of such changes. How would the changing of words in a statute affect the realities of force in a patrol or correctional setting? What challenges might arise for officers and deputies if legal standards are modified and what would the impact be on agencies? This and other current legal topics will be presented by two of the premier law enforcement / corrections defense attorneys in the United States.
